General Manager

Dear Mr. Manager

I understand that you are looking for a qualified and experienced software engineer and researcher for your company. I am writing to introduce myself as an excellent candidate for this position and I have attached my CV along with a cover letter for you to view.

I am confident that I have the skills and experience you are looking for in a candidate and I am eager to apply my knowledge and abilities to your company. As you can see in my resume, I have a Bachelor of Science degree in Software Engineering and I have experience with a variety of application systems and have worked on projects ranging from application and web design. I am confident in my ability to handle any programming project that comes my way. I believe that my skills and experience can be useful for your team.

In my current position as the CEO of my division, I was responsible for the design and development of new software products. I led a team of engineers in the development of a new line of electronic device programming and managed all aspects of the project, from requirements gathering to product launch. I am an expert in web and application design and have experience working with different systems and programming languages. I am also well versed in code testing and system troubleshooting. I also have the ability to adapt electronic projects and so on. I have attached my Curriculum Vitae (CV) with this letter which will give you information about my work and educational background.

It is an honor to be a part of your company or team that aims to create and provide better services and contribute to the development of technology. I am curious about modern technology and detail oriented with good logical thinking. My passion and love for this work has made me now in a position to apply for this position.

I am very excited to join your team, I welcome the opportunity to interview for this position and discuss how my skills can benefit you and meet your needs.

Thank you very much for taking the time to consider my cover letter and resume for this position.
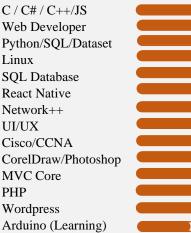

Sincerely,

Alireza Rahimipour Anaraki
